## TACOMA/VALLEY RADIATION ONCOLOGY CENTERS LAUNCH A NEW WEBSITE

**Tacoma, WA** – Tacoma/Valley Radiation Oncology Centers recently launched a new website offering patients easier site navigation and a more consumer friendly design. The new design also provides current and future patients with a better understanding of the services available at their centers, as well as access to some of the latest research in the radiation oncology industry. Pages specifically created to showcase TVROC’s commercials, advertising campaigns and recent company news are also featured. The site was redesigned with feedback from company stakeholders to include patients, visitors, staff and physicians.

At Tacoma/Valley Radiation Oncology Centers we proudly provide exceptional service and patient care whether that comes through a visit to our website or a treatment consultation at one of our centers. With our experience, expertise, and strong service commitment, our goal is to be the radiation oncology provider of choice in the communities we serve. With offices in Tacoma, Puyallup, Gig Harbor, and Olympia, TVROC patients have the comfort and convenience of receiving medical care in their own community without travel to distant, unfamiliar locations. To learn more about the treatment advantages at Tacoma/Valley Radiation Oncology Centers phone us at (253) 627-6172 or visit our new website at [www.defeatyourcancer.com](http://www.defeatyourcancer.com).

### **About Tacoma/Valley Radiation Oncology Centers**

Leaders in advanced and compassionate care since 1979, our board certified physicians and highly-trained staff put patient care first. Certified by the American College of Radiation Oncology and serving Pierce, Thurston, and surrounding counties, our patients receive the most advanced treatment planning, sophisticated, cutting-edge radiation therapies and the highest level of quality, personalized care available. We are the first in the Northwest Region to offer mobile HDR Brachytherapy, a specialized way to deliver radiation to certain types of cancer, and we were recently appointed to the American Brachytherapy Society’s High Dose Rate Brachytherapy Fellowship Program. Giving back to our community is an integral part of our company’s mission. We support the American Cancer Society, Susan G. Komen Foundation, and many other charitable organizations.
